CONFIDENTIAL ASSISTANT
TO THE MAYOR

February 8, 2018

Dear Samsondale Resident:

I'm writing to share some exciting news about pending capital projects in the Village.

Additional progress was made regarding the conversion of all of the Village streetlights to LED fixtures. Those of you familiar with LED lighting know that these units produce a crisper, brighter light than traditional fixtures and well-lit streets are safer streets. The added bonus, of course, is that they use significantly less energy, meaning lower utility bills.

And it's my pleasure to announce that the West Haverstraw Village Board, at last night's meeting, accepted a proposal from the firm of Barton & Loguidice for the Samsondale Streetscape Improvement project. The Village Trustees and I look forward to meeting with the firm soon to discuss the project timeline. We will have more information after we meet with them.

Future updates will be posted on the Village website, under the heading "Samsondale Streetscape Updates". If you have any questions or concerns, do not hesitate to contact me.

Sincerely,

Robert R. D'Amelio
Mayor
